STAT

24 (Unclassified - CM) LIAISON I relayed to [redacted] OCR, STAT that we had decided that we had nothing unclassified on CIA participation in the government-wide SALT analysis process and therefore, concluded that there was no purpose in his talking with CIA people about our role. He asked if we could give him information on titles of Branches working on SALT, lines of authority, numbers of people, etc., for his study; DIA apparently has given him this on its activity. He also asked if we could refer him to congressional committees which, as I had suggested to him earlier, were routinely informed on our involvement in SALT; he said he would seek information for his own background, noting he has a TS clearance, but would not publish anything. I said I would check and get back to him.
